

Internships – Your experiences and preferences

Pre-task:

Have you done an internship yet? If yes, compare your experiences, e.g.

- Location of your workplace
- Your tasks
- Working hours
- Was it paid or unpaid?
- Did you get on well with your colleagues?
- Would you recommend this placement to another student?

If you haven't done an internship yet, draw on the experiences of someone you know who has already completed an internship.

Task 1:

Discuss where you would like to do an internship:

- In which city / country?
- In which industry?
- At which company / organisation?
- What appeals to you about this internship?

Task 2:

Imagine that your partner would like to do an internship in your home country.

- Explain what he/she should pay attention to when doing an internship in your country (e.g. with regards to dress code, do's and don'ts, etc.).

- Find out more about the interests, strengths, qualifications and future plans of your partner and suggest three work placements which could be of interest to your partner.

Follow-up activity:

Have a look online to find a platform which is offering internships in the home country of your partner.

Choose an internship which you find particularly interesting and tell your partner about it during your next tandem session!
