

Career planning and professional preferences

Pre-task:

Interview each other to find out as much as possible about your partner's university course and career plans.

Image 1

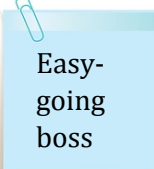

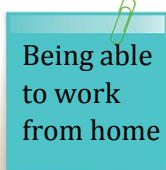

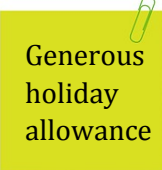

Task 1:

Discuss how easy or difficult you think it will be to find a job in your preferred area(s) after graduation.

Compare how much career and employability support your university is offering.

Task 2:

Compare what you consider important in a future job. Try to rank the following aspects according to how important they are for you in a job. What is in first place? What ranks last?

 <p>High salary</p>	 <p>Friendly colleagues</p>	 <p>Having your own office</p>
 <p>Interesting and varied duties</p>	 <p>High-quality canteen</p>	 <p>Easy-going boss</p>
 <p>Being able to work from home</p>	 <p>Casual dress code</p>	 <p>Generous holiday allowance</p>
