Task 2:

Discuss: What is the level of VAT in your countries? Is it the same for all products? Do you think there should be a lower VAT rate for certain products? If yes, for which products and why?

Task 3:

Read up on tax rates in your country: are they the same for all income groups or are there different rates? Do you think taxes should be the same for everyone or should people with a higher income also pay higher taxes?

Task 4:
