

Politics

Task 1:

What do you think: Should you go and vote in elections? Watch a short video about this topic, e.g. the short "[Why should you vote](#)". Tell one another what you have seen. What is your opinion about it?

Task 2:

Search the internet for information about the election turnout in your country, e.g. at [UK Political Info](#) (national and European elections).

Tell your partner what you found out. Then compare the situation in your two countries. What did you notice? What is the trend in the election turnout? What could be the reasons for this trend?

Task 3:

Watch the trailer for the film "[Suffragette](#)" on YouTube. Tell one another what you think this film is about. Have you already watched the film?

If yes, how did you like the film?

If no, did the trailer attract your interest? Would you like to watch the film? Why? Why not?

Task 4:

Tell your partner: Have you ever taken part in a political demonstration? If yes, for or against what? If no: Would you participate in a demonstration? If yes, for or against what?
